This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. # TERMS OF MEMBERSHIP.

[*Extract from the Constitution of the Mercantile Library Association.*]

CHAP. I.—ART. 3. Any person engaged in mercantile pursuits as a clerk, may become a member of this Association, if approved by the Board of Direction, when he shall have subscribed the Constitution, paid an initiation fee of $1,00, and $1,00 for the first six months. His further regular dues shall be, thereafter, 50 cents quarterly, in advance.

CHAP. I.—ART. 4. Any member of this Association, commencing business on his own account, may continue his membership, upon the payment of $1,00 semi-annually, in advance. Merchants, also, may become members, by paying $5,00 annually; but no merchant shall be entitled to a vote, or eligible to any office. Persons not engaged in mercantile pursuits may, if approved by the Board of Direction, be admitted to the use of the Library and Reading Rooms, upon the same terms as merchants.

# PREFACE.

THE MERCANTILE LIBRARY ASSOCIATION of New York was formed in 1820,—the first public meeting of merchants' clerks, for the purpose of considering the expediency of establishing a Library and Reading Room, having been held on the ninth of November in that year. The Library was opened in February, 1821, at a room in Fulton street, and contained, at that time, 700 volumes. It remained there till February, 1826, when, having increased to 3300 volumes, it was removed to a larger room, in Cliff street.

In February, 1828, at a meeting of prominent merchants, interested in the success of the Institution, it was agreed to raise, by subscription, a sum sufficient for the erection of a building for the permanent accommodation of the Library. Between thirty and forty thousand dollars was subscribed, and the building called CLINTON HALL, on the corner of Beekman and Nassau streets, was erected. The Association took possession of the rooms provided for their use by the CLINTON HALL ASSOCIATION, in November, 1830, at which time the Library contained about 6000 volumes. Since then it has steadily increased, and now numbers 21,200 volumes.

The present Catalogue is divided into three parts. In the first, works are arranged in *alphabetical* order, under their authors' names, or, if anonymous, under the leading word in the title. In the second, they are *classified* under general heads, which are themselves arranged alphabetically. The Classified Catalogue forms an *index* to the Alphabetical Catalogue, and reference can readily be made from the former to the latter, as the first word in the title of every book is the same in both. Biographies, only, stand, in the body of the Catalogue, under their authors' names, and, in the index, under the names of their subjects. The third part, or *Appendix*, comprises *Novels*, which are not inserted in the other divisions of the Catalogue.

Books which are strictly Works of Reference, and which cannot be taken from the Library, are marked in the Catalogue with an asterisk (*). Other books are from time to time designated by the Board of Direction, which cannot be taken out except by special permission of a member of the Board.
